La Società ITALVALV, fondata nel 1974, produce valvole industriali high performance a farfalla, a sfera, a semisfera per l'intercettazione e la regolazione dei fluidi, con azionamenti manuali, idraulici, pneumatici, elettrici ed idroelettrici.

Tutti i prodotti Italvalv sono progettati secondo gli standards: ANSI, ASME, API, ISO, UNI, DIN, AWWA e sono testati al 100%.

Sistema Qualità in accordo a UNI EN ISO 9001:2000.

Progettazione e fabbricazione certificate in accordo a PED 97/23/CE - H e API 6D.

Fire Safe in accordo a API 6FA e BS 6755 Part 2.

Le valvole ITV sono da oltre trent'anni nel mondo ed ogni esigenza d'impianto può incontrare valvole ITALVALV personalizzate per la soddisfazione del Cliente e della società stessa.

Team manageriale motivato e personale altamente qualificato garantiscono prodotti di alta qualità, consegne puntuali e assistenza post- vendita sempre disponibile.
